

Black Edition

UV LED 365 nm
approx. 100 W/m²
at 400 mm distance
Risk Class 2
(EM6 DGZfP)

the real 'BLACK Light'

60 % more UV capacity

more improved

more efficient

The portable UV-LED for penetrant & magnetic particle inspection.

Tiede has been the first to establish LED technique to NDT. Now we improved this technique. The result is a quite impressive product .
ITW Tiede Ndt — your partner for innovative products & equipment for non destructive testing.
